Curtiss-Wright Awarded \$50 Million IDIQ Contract by Naval Air Systems Command for High-Speed Data Acquisition Systems

ASHBURN, Va. – March 11, 2025 – [Curtiss-Wright's Defense Solutions Division](#) today announced it has been awarded an approximately \$50 million firm-fixed-price Indefinite Delivery, Indefinite Quantity (IDIQ) contract by Naval Air Systems Command to provide its high-speed data acquisition systems hardware and associated repair services in support of the Naval Air Systems Command Special Flight Test Instrumentation Pool. The contract, which is scheduled to run through January 2030, covers Curtiss-Wright's full line of flight test instrumentation products, including data acquisition units, network switches, data recorders, network gateways, Ethernet radios, RF transmitters, C-Band transponders, and high-speed cameras supporting fixed-wing and rotary military aircraft. This contract will support numerous platforms including the F-35, F-18, CH-53K, E-2D, EA-18, C-130, and future U.S. Navy development programs.

"We are honored that our high-speed data acquisition technology and services have been selected by Naval Air Systems Command," said Brian Perry, Senior Vice President and General Manager, Curtiss-Wright Defense Solutions Division. "This IDIQ contract, which is the renewal of an existing contract that has been in use for over 15 years, represents Naval Air Systems Command's continued endorsement of the reliability and

performance of our flight test instrumentation technology to support critical naval air deployments and future U.S. Navy development programs.”

Curtiss-Wright is one of world's leading providers of aerospace data acquisition solutions for flight test instrumentation (FTI) applications. Whether on fast jets, space launchers or hypersonic platforms, from data capture in the air to replay and analysis on the ground, Curtiss-Wright's FTI solutions speed and simplify flight test instrumentation system design and installation. This press release contains forward-looking statements made pursuant to the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements, including statements relating to Curtiss-Wright's expectations of a continued relationship with the U.S. Navy, the continued success of its data acquisition systems, the performance of its products, the long term value of this contract, the continued funding for this program by the U.S. Government, and the future opportunities associated with this technology, are not considered historical facts and are considered forward-looking statements under the federal securities laws. Such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those expressed or implied. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Such risks and uncertainties include, but are not limited to: a reduction in anticipated orders; an economic downturn; changes in competitive marketplace and/or customer requirements; a change in US and Foreign government spending; an inability to perform customer contracts at anticipated cost levels; and other factors that generally affect the business of aerospace, defense contracting, marine, electronics and industrial companies. Please refer to the Company's current SEC filings under the Securities Exchange Act of 1934, as amended, for further information.
