Thank you for submitting your annual report under the *Fighting Against Forced Labour and Child Labour in Supply Chains Act*.

# Complete the questionnaire and submit your report

The next reporting deadline for the *Fighting Against Forced Labour and Child Labour in Supply Chains Act* (Act) is May 31, 2025. Reports are submitted to Public Safety Canada through the online questionnaire. Questionnaire responses and annual reports must reference the activities undertaken during the entity's or government institution's previous financial year.

If an entity or government institution is unsure whether they are required to report, refer to [guidance](#) on the application of the Act for entities or government institutions.

## Purpose of the questionnaire

To submit their annual report, entities and government institutions must complete this questionnaire. The questionnaire collects information that responds to the Act's reporting requirements and is the mechanism for submitting an annual report to Public Safety Canada.

Questionnaire responses are used internally by Public Safety Canada to track submissions and catalogue reports. Submission information collected through the questionnaire supports the search function in the online repository of annual reports. Public Safety Canada may also use questionnaire responses for analytical purposes.

Entities and government institutions subject to the Act may refer to the list of questions and examples within the questionnaire when developing their annual reports. The reporting exercise, over time, is expected to improve entities' and government institutions' capacity to identify, prevent, reduce and address forced labour and child labour risks.

## Completing the online questionnaire

The questionnaire is completed using information from activities undertaken during the entity's or government institution's previous financial year before the May 31 reporting deadline. There is no prescribed level of detail required for the responses. However, entities and government institutions must ensure that their responses to the questionnaire are accurate and that the information is consistent with their annual report.

In the case of a joint report, only the entity submitting the report should complete the questionnaire on behalf of all entities covered by the report. A joint report should only be submitted if the information provided generally applies to all entities covered by the report.

The questionnaire is considered complete if all of the mandatory fields have been filled out and a report has been uploaded at the end of the questionnaire that meets the following requirements of the Act:

- Contains information addressing each of the requirements in [subsections 6\(1\) and 6\(2\)](#), for government institutions, or in [subsections 11\(1\) and 11\(3\)](#), for entities;
- For entities, has received the necessary approvals and includes the signed attestation;
- For government institutions, is submitted in both official languages;
- Is a PDF file that does not exceed 100MB in size.

Public Safety Canada recognizes that the online questionnaire does not allow entities and government institutions to elaborate on all answers within the questionnaire. Entities and government institutions are encouraged to respond to the best of their ability and provide further clarification and detail within the annual report, as necessary.

At the end of the questionnaire, entities and government institutions must upload their annual report in PDF format, and select “submit”. Entities and government institutions will receive a confirmation email following submission, and will have the option to download a copy of their responses to the questionnaire.

## Language requirements

**Entities** must complete the questionnaire and submit the PDF report at the end of the questionnaire in one of the two Canadian official languages. It is recommended, however, that reports be submitted in both English and French, in order to make reports accessible to the broader Canadian public. Entities that opt to submit their report in both Canadian official languages can upload two separate PDF files at the end of the questionnaire. Requests for translated copies of reports may be directed to the responsible entity.

**Government institutions** may complete the questionnaire in either Canadian official language, but are required to submit the PDF version of their report in both English and French, as per the *Official Languages Act*. At the end of the questionnaire, government institutions must upload their reports in both English and French as separate PDF files before they select “submit.”

## Publication requirements

On providing a report to Public Safety Canada, entities must publish their report in a prominent place on their website.

Reports submitted to Public Safety Canada will also be made publicly available in a searchable [online catalogue](#) which is updated on an ongoing basis.

Only the PDF reports and select information submitted through the online questionnaire will be published on the Public Safety Canada website.

Public Safety Canada is not responsible for reports submitted by entities, which may or may not meet federal standards related to accessibility and official languages.

# Failure to report

Failure to submit an annual report in accordance with the Act is considered an offence under subsection 19(1).

Knowingly making a false or misleading statement or providing false or misleading information is considered an offence under subsection 19(2).

All offences under subsections 19(1) and 19(2) are punishable on summary conviction and a fine of not more than \$250,000.

# Data Management Disclaimer

Questionnaire responses will be stored by Public Safety Canada and will be disposed of in accordance with the Policy on Service and Digital, the *Access to Information Act*, the *Privacy Act* and the *Library and Archives Act*. The report itself will be added to the Public Safety Library's collection and will be subject to the Public Safety Canada Library Collection Development Policy.

Public Safety Canada may proceed with the manipulation or translation of answers to align the bibliographical data of the report to Treasury Board Secretariat (TBS) Standard for Managing Metadata and Public Safety Canada Library cataloguing and description procedures.

In addition to the TBS standards for managing metadata, the library maintains a bilingual cataloguing style that reflects Library and Archives Canada's own policy on the Directive on the Official Language of Description ([canada.ca](http://canada.ca)). Specifically, metadata is entered in the language of submission, in order to present a "true and accurate representation of that publication".

In instances where an entity submits two reports: one in French, and one in English, these resources are divided and catalogued separately, with metadata being entered once in French, and once in English, to accurately reflect the contents of each.

If a singular bilingual publication is submitted, then we will enter all metadata twice in the same record, once in French, and once in English. In all scenarios, the goal is to accurately reflect the language contents of the published work within the metadata itself.

# Privacy Notice Statement

Personal information is collected by Qualtrics on behalf of Public Safety Canada for the purpose of verifying information contained in reports submitted under the *Fighting Against Forced Labour and Child Labour in Supply Chains Act* (Act).

Public Safety Canada requires entities and government institutions required to report under the Act to complete the questionnaire. Please note that information entered in any open text box field could be identifiable depending on the information provided. In order to protect privacy, entities and government institutions must not add personal information of any kind in these open text areas.

Personal information will be managed and administered in accordance with the *Access to Information Act*, the *Privacy Act* and any other applicable laws. Public Safety Canada may use the personal information provided in the questionnaire responses for policy development purposes, but the information may also be used for investigative purposes.

For more information on Public Safety Canada's privacy practices related to online activities, please refer to Public Safety Canada's [Terms and conditions](#).

You have the right to the protection of, access to and correction of your personal information. Find instructions for obtaining information through [Public Safety Canada's Access to Information and Privacy \(ATIP\)](#).

Any questions, comments, concerns or complaints you may have regarding Public Safety Canada's handling of your personal information may be directed to our Access to Information and Privacy Coordinator by emailing [atip-aiprp@ps-sp.gc.ca](mailto:atip-aiprp@ps-sp.gc.ca). If you are not satisfied with Public Safety Canada's response to your privacy concern, you have the right to file a complaint with the [Privacy Commissioner of Canada](#) regarding the institution's handling of your personal information.

\*I have read and understand the information above.

## PART 1

# Submission Information

In order to protect privacy, entities and government institutions must not provide personal information of any kind in the open text box fields of this questionnaire.

Public Safety Canada recognizes that some aspects of the online questionnaire may limit an entity or government institution's ability to elaborate on complex information or provide detailed responses. Entities and government institutions are encouraged to respond to the best of their ability and provide further clarification and detail in the annual report, as necessary.

An entity submitting a joint report on behalf of multiple entities (e.g., its subsidiaries) may complete **Part 1: Submission Information** using information that reflects its own circumstances and operations. However, any information provided in **Part 2: Annual Report** should reflect the activities of all entities covered by the joint report. In cases where the information applicable to each entity differs significantly, each entity should submit its own report and complete the online questionnaire separately.

Dy 4 Systems' commitment to prevent forced labour and child labour in its business and supply chains is underpinned by appropriate policies. Dy 4 Systems believes that ethical conduct goes beyond compliance and resides in a comprehensive governance culture. The policies and procedures of Curtiss-Wright apply to all its subsidiaries and affiliates worldwide. This includes the (i) Curtiss-Wright Code of Conduct, (ii) the Curtiss-Wright Human Trafficking and Slavery policy, (iii) the Curtiss-Wright Anti-Slavery and Human Trafficking Statement 2020, and (iv) the Curtiss-Wright Code of Conduct – Suppliers and Customers. These policies can be found on Curtiss-Wright's internet site at:

<https://www.curtisswright.com/investorrelations/governance/governance-documents>. We take steps to evaluate the risks of slavery and human trafficking in its supply chain. This is reinforced by a process of regular review and audits of our suppliers and potential suppliers to evaluate our suppliers' ability to adhere to our Supplier Code of Conduct. Any failures to meet our requirements or concerns are addressed on a case-by-case basis. Our terms of purchase requires suppliers to certify that the production of materials incorporated into any products sold or otherwise provided to Dy 4 Systems complies with laws regarding slavery and human trafficking of the states, provinces or countries in which the supplier does business. Remedial actions may be taken against any supplier that acts in violation.

Our supply chain is largely based in Canada and the USA, and their businesses and operations are subject to a common set of laws and regulations applicable to our business. Given the commercial and military aerospace industry that we operate in, our products require a high degree of technical manufacturing expertise and quality and operational control both in our facilities and in our supply chains. As such, our suppliers are required to comply with and be audited against quality and operational requirements such as AS9100, ISO9001 or similar quality and operational management systems. Our requirements for traceability and quality assurance require the use of suppliers able to trace their supply chain back to original manufacturers. The highly technical nature of our products and these requirements on our supply chain result in a low exposure to risks associated with forced or child labour. Our terms of purchase requires suppliers to certify that the production of materials incorporated into any products sold or otherwise provided to Dy 4 Systems complies with laws regarding slavery and human trafficking of the states, provinces or countries in which the supplier does business. We conduct due diligence which may include searching publicly available databases to ascertain supplier's compliance with applicable laws and regulations and may also include, where appropriate, a visit to the supplier's premises.
