Curtiss-Wright achieves ISO 14001 and ISO 45001 certifications for Switzerland facility

Milestone certifications highlight company's commitment to environmental responsibility and a safe working environment for its employees

NEUHAUSEN AM RHEINFALL, Switzerland. – Apr. 28, 2026 – Curtiss-Wright announced today its Neuhausen am Rheinfall facility has obtained the International Organization for Standardization's (ISO) 14001 and 45001 certifications, validating that the company's management systems meet rigorous international standards for environmental management and occupational health & safety.

Curtiss-Wright's Neuhausen am Rheinfall facility is home to a comprehensive portfolio of motion control and stabilization systems, as well as a full suite of cost-effective engineering, program management and support services for both the defense and industrial markets around the globe.

"Commitment to environmental sustainability as well as employee health and safety is an integral part of our culture," said Christian Kopp, managing director of Drive Technologies, Curtiss-Wright Defense Solutions. "Earning ISO 14001 and ISO 45001 certifications underscores our commitment to protecting the environment, prioritization of the well-being of our employees, and our focus on operational excellence."

These certifications reinforce Curtiss-Wright's dedication to sustainable business practices and responsible growth. Customers can be confident the company operates with a strong framework for environmental management and workplace safety, which ensures consistent quality and responsible operations across its varied efforts.
